

Global Ethernet Service

Making the world a smaller place to grow your business

Get connected to anywhere in the world – from Oman

Our Global Ethernet Service is a dedicated full-circuit Ethernet that links Oman to all the major business markets and data centres around the world. With our strategic partners worldwide, we can reach the location you need.

Let us help you to grow your business and reduce your network costs.

Service

- An easily understood network protocol that has been prevalent in the LAN for decades is now available in the WAN, giving seamless transmission worldwide
- Allows your business to grow seamlessly by ordering exactly the bandwidth required

Customer Benefits

- Empowers seamless growth by providing upgrades to existing circuits without impacting your service
- Dedicated layer 2 bandwidth backed up by SLA based service availability and delivery guarantees
- Full-circuit end-to-end solutions available to all the major data and business centres worldwide, giving one point of contact for your global network requirements

Bandwidths

- Delivered in Fast-E interfaces from 2-100 Mbps in 2 Mbps increments
- Delivered in Gig-E interfaces from 50-1,000 Mbps in 50 Mbps increments
- Easily upgradable to suit company demands
- MEF compliant
