

# Global VPN

## Your MPLS based virtual private network to reach over 200 countries

### Get connected to anywhere in the world – from Oman

Our Global VPN offers MPLS based services that links Oman to all the major business markets and data centres around the world.

Offered with the flexibility and scalability to grow with your business needs, your investment in our Global VPN can lead to a reduction in the total cost of ownership of your company's network costs.

With our strategic partners located worldwide, we can reach any location you need so that you can grow your business and reduce your network costs.

### Customer Benefits

- Empowers seamless growth by providing non-service impacting upgrades to existing circuits
- Bandwidth backed up by SLA based service availability and delivery guarantees
- The product is available to all the major data and business centres worldwide, giving one carrier point of contact for your global network requirements

### Service

- An easily understood and widely used MPLS technology that routes using labels and is delivered over Ethernet
- Allows your business to grow seamlessly by ordering exactly the bandwidth required global ports

### Bandwidths

- Easily scalable
- Non-deterministic paths provide optimal and low latency routes to interconnect the Global VPN ports
- Routed with widely known good traffic engineering capabilities and good reliability

### Product Features

- Global VPN with underlying MPLS technology from Oman to worldwide locations
- Metro connectivity is also available through partners in major cities such as Paris, Marseilles, Frankfurt, Amsterdam, London, New York, Los Angeles, Tokyo, Hong Kong, Doha, Singapore and Mumbai
- International network reachability through cable system traversing through Cochin, Mumbai, Karachi, Fujairah, Muscat, Dubai, Doha, Manama, Khobar, Kuwait, Jeddah, Alexandria, Catania, Marseille and more
