

Ethernet & Leased Line Services

Speedy and secure data connectivity for your office

A reliable data connection with service management

Our business data products offered as Ethernet or Leased Line Services are aimed at supporting data requirements covering all types of companies. Compatible with the past and ready for the future, we offer a service that fits your requirements immaterial of your company size or location.

Capable of supporting legacy or modern network elements, our data solutions are designed to offer you seamless connectivity that's easily upgradable.

Service

- Dedicated and secure point-to-point connectivity solutions
- Available in both TDM emulated leased lines and Layer 2 Ethernet technologies
- Comes with a full basket of additional features

Customer Benefits

- Choice of leased line or Ethernet
- Highly scalable service
- Transparent cost structure
- Comprehensive online monitoring tools
- A reliable connection with service management and dedicated after sales support team

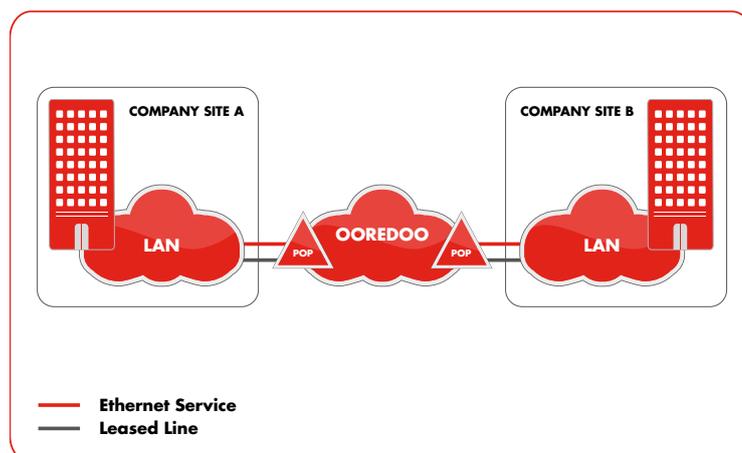

Product offering

- **Ethernet Service**
 - Economical site-to-site connectivity
 - Provides connection over layer-2 (Ethernet)
 - Very high scalability and future ready
 - Permanently monitored by our Network Operations Centre
