

M2M services

Get your smart devices working for you

Communication between machines is a necessity no business can do without. M2M connectivity gives you access to real-time information, which means your business can track and reply to sales leads and customer enquiries faster. And it's ideal for monitoring, controlling and processing information between devices.

Controlled and processed in a centralised manner, our M2M solution is developed to let your devices work for you.

Customer Benefits

- Cost efficiency
- SIM card enabled with data and SMS only to avoid misuse
- SIM card holds included data bundle
- Attractive out of bundle rates for additional data use
- Operation efficiency – The SIM card can be used by any SIM card operated internet compatible device for different purposes
- Dedicated Account Manager

Service

- M2M service facilitates any SIM card-operated, internet-based handheld or fixed device to communicate with other compatible devices of the same ability, using the Ooredoo mobile network, in a secured environment

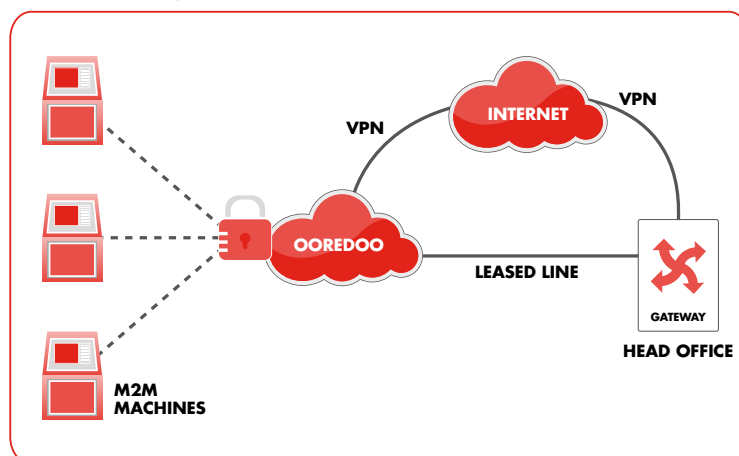

Requirements

- All activations to be registered under the company name
- Company Registration Number (CRN) and relevant company documents
- An official service request letter from the company, specifying the product plan and guaranteeing to settle M2M related invoices

Terms & Conditions

- The product will have one bill for all SIM cards
- Customer will receive a monthly bill with the normal bill cycle
- Free SIM replacement for lost/damaged SIM cards
- Migration between M2M packages are available once the minimum and/or maximum number of SIM cards per package is met
- Migration between the packages will be applied at the end of the bill cycle
- Barring and unbarring is applicable at an account level
- Termination of the product will be at account level (i.e. per SIM card), you can terminate the product at any time
