

# IPLC service

## Your secured point-to-point private internet connection to the world

### Originate from anywhere in Oman to get connected to the world

Our International Private Line Circuit (IPLC) is a point-to-point private internet connection that can originate from anywhere within our domestic network and help you reach over 200 destinations worldwide.

Coupled with our partner investments in various submarine cable systems and strategic global partnerships, we make sure that your business is connected to any business market or data centre location around the world; backed by our award-winning customer service every step of the way.

#### Service

- A protocol agnostic or protocol independent service with a secured bandwidth
- Easily integrated with other carriers, partners and your company's existing network ITU-T G.703 capabilities

#### Product Description

- Global connectivity with dedicated point-to-point layer 1 IPLC bandwidth
- Metro connectivity available through partners in major cities such as Paris, Marseilles, Frankfurt, Amsterdam, London, New York, Los Angeles, Tokyo, Hong Kong, Doha, Singapore and Mumbai
- International network reachability through a cable system traversing Cochin, Mumbai, Karachi, Fujairah, Muscat, Dubai, Doha, Manama, Khobar, Kuwait, Jeddah, Alexandria, Catania, Marseille and more

#### Bandwidths

- Leased line connections available from E1, DS3, STM1, STM4, STM16 and 10G worldwide to most of the global data centres and cities
- Protection options available using the diverse stakes in various submarine cable systems

#### Customer Benefits

- Full end-to-end circuits solutions available to all the major data and business centres worldwide giving one point of contact for your global network requirements
- Dedicated layer 1 bandwidth backed up by SLA based service availability and delivery guarantees

#### Our global network with international partners
