

Internet Enterprise

Guaranteed corporate internet connectivity

Our Internet Enterprise aims to deliver dedicated, connected, and synchronous internet services to your business over Oman's most advanced fibre network. It delivers speed and dedicated bandwidth coupled with security and dedicated after-sales service.

Also, for the first time in Oman, we offer you the option to upgrade your Internet Enterprise service and double your existing speeds. All you need to do is select the required bandwidth for your business needs and you can benefit from extra non guaranteed speed when network conditions permit.

Service Features

- Flexible speeds ranging from 256 Kbps to 155 Mbps
- Guaranteed bandwidth is contention free and dedicated
- Internet connections delivered over fibre are degradation free as there are no issues with distance from exchange
- Fully diverse redundancy routing options (subject to availability)
- A wide range of IP addresses (29 subnets)
- DDoS Managed Security Service (optional)

Internet Enterprise: Plus option

- Add the Plus option to your Internet Enterprise and double or triple your speed (burstable bandwidth is subject to network conditions)
- Plus is available on most Internet Enterprise plans

Customer Benefits

- Wide range of bandwidths to suit your unique business requirements
- Reliable connection backed up by world class service management and dedicated after-sales support team
- Plus option offers your business a degree of flexibility previously not available at this scale
- Discounted rates for multi-year contracts
- Ease of scalability to upgrade to the next bandwidth plan without the need for a new installation
- Dedicated Account Manager
