

Managed PBX

One stop communications solution

Alleviate your worries of managing your office telephone system by letting Ooredoo do it for you with our Managed PBX service. Our efficient and cost effective communications solution converges PBX with voice connectivity lines into one seamless and integrated service, providing managed services for enhanced collaboration and scalability.

Product Description

- Single supplier for PBX and phone lines
- Various pricing models: Opex, Capex and hybrid
- Bundled with PRI and SIP trunk services
- Supply, installation, configuration, maintenance and support of the PBX
- Business Group to enable free calling between fixed and mobile phones
- IP, digital and analogue phones supported
- Voice mailbox that enables callers to record messages when users are unavailable (optional)

Customer Benefits

- Increased efficiency through a single provider for all your fixed voice requirements
- Reduced total cost of ownership through an Opex model
- Customised IP based voice solution according to your requirements
- Proactive and professional pre and post sales support
- Saves operational costs by reducing in-house dependency
- Maintain core focus on your business, not on your phone system
