

WiFi Enterprise

Internet access solutions for your office

Get connected with efficient, flexible WiFi for large businesses

WiFi Enterprise is an end-to-end wireless internet solution designed to serve medium to large enterprises such as (but not limited to) hotels, corporate offices and school campuses or even municipal parks. This is a regulatory approved WiFi service that can be used by multiple parties and offered as a private or public service.

Customer Benefits

- Increased efficiency – improved communications leads to faster transfer of information within businesses
- Constant connectivity – no requirement for cables or adaptors to access internet or corporate network
- Greater flexibility and mobility – enterprise based wireless users can be networked without sitting at dedicated PCs
- Reduced costs – relative to 'wired', wireless networks are, in most cases, less expensive to install and maintain
- Dedicated Account Manager

Product Features

- Suitable for medium to large enterprises from any industry
- Tailor-made solutions with indoor and outdoor coverage possibilities
- Offered with variable internet bandwidth
- Indoor and outdoor solutions
- Unlimited data usage
- For private or public internet

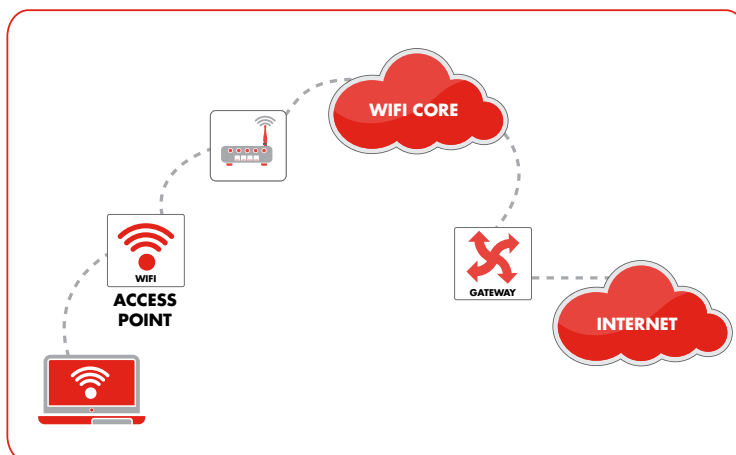

Tariffs

- Tariffs vary due to the customised nature of the solution. Please contact us for a quotation based on the solution you choose.

Requirements:

- This service is available for our business customers only
