

# Wireless Data Link

## Speedy connectivity through mobile data

### Connect machines or offices through a dedicated data line

Wireless Data Link is a secured point-to-point connection capable of connecting bank ATMs, credit card POS devices and even commercial radio broadcasting services on the move to their command centres.

Offered over the mobile network, the service facilitates fast connectivity between your required locations making it the ideal partner for areas not accessible with wired data solutions.

### Customer Benefits

- Speed of service – no waiting for approvals or locations
- Mobility – no wires; you can change locations as and when you want
- Security – dedicated APN known only to the business with end to end encryptions
- Economical
- Dedicated Account Manager

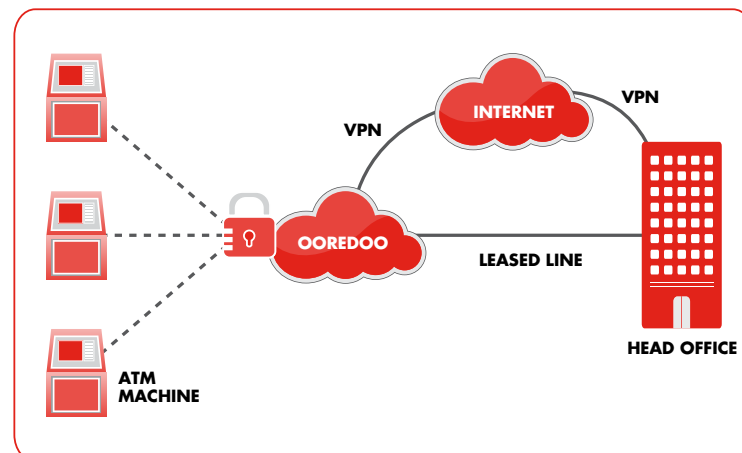

### Service

- Secured and dedicated Access Point Name (APN)
- End-to-end encryption between modems and the application server
- Communication enabled through Virtual Private Network (VPN) tunnel
- Cost effective service
- Dependable speed
- Choice of price plans to suit your needs

### Tariffs

	Wireless Data Link 64	Wireless Data Link 384
Monthly Subscription Fee	RO 59	RO 139
Speed	64 Kbps	384 Kbps
